

## Teased and Denied

Teased and denied at the hands of Humiliatrix Goddess Lycia. Not long ago typing those words would have been completely foreign to me. i'm not even certain i knew what the work Humiliatrix meant, never could i have imagined that i would come to daydream about being teased and denied. As i learn more and more to think correctly i have discovered that are fetishes i have and didn't even realize it. But Goddess Lycia knows, and Goddess Lycia is Humiliatrix supreme.

The ground work was layed when Goddess Lycia unleashed Her hypnosis session "Forever Aroused" to the world. Simply announcing the recording in an erotic hypnosis forum created some stir. The very premise of a male being kept aroused for extended periods of time through the use of hypnosis cause even a long time HypnoDomme to express concern. She obviously realized the natural skills and abilities of Goddess Lycia.

Was i afraid of what the hypnosis recording might do to me? No i wasn't, being afraid is mostly about going off into the unknown, i was fairly confident Goddess Lycia was going to do to me exactly what She said She was going to do to me. What i didn't know and understand at the time was that i was stepping into the world of Her Humiliatrix side. And that side, that power part of who Goddess Lycia is, is one more way that She creates the insatiable addiction as only a Humiliatrix can.

And so i did listen to Forever Aroused, as with most of Goddess Lycia's hypnosis whether it be that She takes me so deep or some other techniques She applies, i remember very little when i come out of it. Only this time something different happened. Rather than have that pleasurable sensation of fulfillment, i came back wanting, needing, and with a burning arousal like none other i had felt before.

It was all exactly as advertised, just what She said would happen. And more importantly the spell She cast on me with Forever Aroused entered my blood stream, as if a biological change had occurred. As if? hmm i only know now that when i am allowed relief from the arousal that is constant in Her realm, it is more exquisite than ever i could have imagined, just as i never would have imaged myself being addicted to a powerful Humiliatrix, my Goddess Lycia.
