

Cult of Lycia - April Update

Goddess Lycia has just released the April update to Her Femdom fetish cult site. This month She has a new story called the Shrinking Penis, i like the way She did that title a little bit of a mind trip. A really fun new video called, Lycia's Orgasm (not yours), just some extra tease and denial training, with some suffering added for good measure as She is famous for. i REALLY love that video. And also a nice brainwashing Flash Animation.

Of course She has also added a new batch of photos of the most beautiful Goddess on the planet Herself in Her gallery. And brand new subbie assignments for April
